Summary

Full-Stack Web Developer with internship and full-time experience building production-grade, serverless enterprise applications at Botivate Services LLP. Proficient in React.js, TypeScript, Next.js, Zustand, Tailwind CSS, and Google Apps Script. Delivered systems spanning laboratory management (NABL-compliant), fleet fuel tracking, financial reconciliation, and asset tracking — integrating PDF generation, QR automation, and real-time data pipelines. Holds certifications from Google, Microsoft, and Cisco, with 100+ DSA problems solved on LeetCode.

Education

Rungta College of Engineering & Technology

Bhilai, CG

Bachelor of Technology in Computer Science | Specialization in Data Science

2022-2026

Central Hindu School

Gorakhpur, UP

Intermediate [PCM] - 70%

(2022)

|

High School – 89%

(2020)

Technical Skills

Programming Languages: Java, TypeScript, JavaScript (ES6+)

Frontend: React.js, Next.js, Vite, React Router DOM, Zustand, Context API, Tailwind CSS, Shadcn UI

Backend/APIs: Node.js, Express.js, FastAPI, Flask, REST APIs, JWT Authentication, Google Apps Script (Serverless)

Database: PostgreSQL, MongoDB, Supabase, Google Sheets API

Document & Automation: jsPDF, @react-pdf/renderer, SheetJS (xlsx), Recharts, QR Code Generation, Google Drive API

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Figma

Other Skills: DSA (Java), HTML5 Canvas API, RBAC Implementation

Experience

- Web Developer Full-Time (Onsite) | Botivate Services LLP** Raipur, CG | May 2026 – Present
Web Developer Intern Jan 2026 – April 2026
 - Architected and delivered 4+ production-grade enterprise systems (LIMS, Fleet Fuel Tracking, Financial Dashboard, Asset Tracking) using React.js, TypeScript, Vite, Zustand, and Tailwind CSS, promoted to full-time on the basis of performance within 4 months.
 - Designed a serverless backend using Google Apps Script and Sheets API as a zero-cost data layer, reducing API response latency by 45% through spreadsheet caching and batch write optimizations.
 - Engineered automated document pipelines (jsPDF, @react-pdf/renderer, SheetJS) and QR-based tracking systems, eliminating 100% of manual paperwork overhead across client deployments.
- Web Developer Intern (Remote) | iTechnoPad** Pune, MH | Dec 2025 – Jan 2026
 - Developed RESTful APIs using FastAPI and PostgreSQL for a multi-module property management system, handling listings, bookings, and user records.
 - Built responsive React UI components across 5+ feature modules, implementing reusable design patterns and consuming backend APIs.

Projects

- AI-Powered Interview Preparation Platform System ([Github](#))**
Tech Stack: React 19, Node.js, Express.js, MongoDB Atlas, Gemini 2.5 Flash, JWT, Monaco Editor, Web Speech API, Tailwind CSS, Recharts, jsPDF
 - Integrated Google Gemini 2.5 Flash to automate multi-dimensional candidate evaluation (5 metrics) with adaptive difficulty calibration based on past sessions, reducing manual grading latency by 95% (20 mins → <5 seconds).
 - Engineered an interactive assessment workspace with Monaco Editor, Web Speech API voice-to-text input, and hint cooldown logic, improving mock interview completion rates by 35%.
 - Offloaded PDF report generation to the client-side using jsPDF and html2canvas-pro, eliminating 100% of backend compute overhead for document exports with MongoDB aggregation queries reducing dashboard load by 40%.

2. **Career & Course Recommendation System** ([Github](#))

Tech Stack: *React.js, Node.js, Express.js, Python, FastAPI, spaCy, Scikit-learn*

- Developed a resume-driven recommendation engine using Node.js + Python (FastAPI) microservice architecture, leveraging spaCy NLP for skill extraction and gap analysis across job roles.
- Built a context-aware ranking engine delivering personalized learning paths and career roadmaps via a React dashboard, reducing manual career research effort through automated skill-to-role matching.

Certifications

• Java (Basic)	- HackerRank	- Apr 2025
• Young Professional	- TCS iON	- Apr 2025
• Introduction to Python	- Microsoft	- Sept 2024
• Introduction to Cyber Security	- Cisco Networking Academy	- Mar 2024
• Introduction to Generative AI	- Google	- Feb 2024

Achievements

- Secured through a national-level competitive exam conducted by the **Reliance Foundation Scholarship** to support meritorious students pursuing undergraduate degrees.
- Solved 100+ DSA questions on [Leetcode](#) improving problem-solving and coding speed.
